EXTENSION

On-Farm Research

Looking for ways to maximize your profitability in 2017?

Come hear about research projects conducted in 2016 by farmers across the state in cooperation with Nebraska Extension.

Certified Crop Advisor Credits are applied for and pending approval.

There is
no cost to attend.
Please pre-register at least
2 days in advance for meal
planning purposes
Contact: onfarm@unl.edu
or 402-624-8030

Research topics include:

- Variable Rate Seeding
- Multi-Hybrid Planting Applications
- Tools for Sidedress Nitrogen Management
- Precision Seed and Fertilizer Application
- Starter Fertilizer
- Fungicide Applications
- Row Spacing
- Planting Populations
- Cover Crops
- Seed Treatments
- Project SENSE (crop canopy sensor directed in-season nitrogen application)
- AND MORE

The Nebraska On-Farm Research Network is a statewide on-farm research program addressing critical farmer production, profitability and natural resource questions where growers take an active role in the research.

Sponsored by:  EXTENSION

In partnership with:

University of Nebraska-Lincoln Institute of Agriculture and Natural Resources
Extension is a Division of the Institute of Agriculture and Natural Resources at the University of Nebraska-Lincoln cooperating with the Counties and the United States Department of Agriculture. University of Nebraska-Lincoln Extension educational programs abide with the nondiscrimination policies of the University of Nebraska-Lincoln and the United States Department of Agriculture.
